# CASH DROP SPECIFICATION

(How? How is this system designed?)

## Prizes

During the Cash Drop campaign period, we randomly drop cash prizes into eligible players' accounts while playing the specified slot games. All players have an equal chance to win the prize, regardless of their total betting amount or how long they play. **TWO** levels of prizes, namely the "**Main Prize**" and the "**Mystery Prize**," can be won by players.

### Main Prize

The winner of the main cash drop prize is chosen randomly by the system, and the player does not need to take any additional action once they have been picked during gameplay.

### Mystery Prize

The mystery prize is an additional prize that is distributed by our system to players who have won the main prize during gameplay. To receive the mystery prize, players **MUST CLICK** on the **AP Coins** during the cash drop. Please take note that players will **NOT** receive the mystery prize if they miss tapping on the AP Coins.

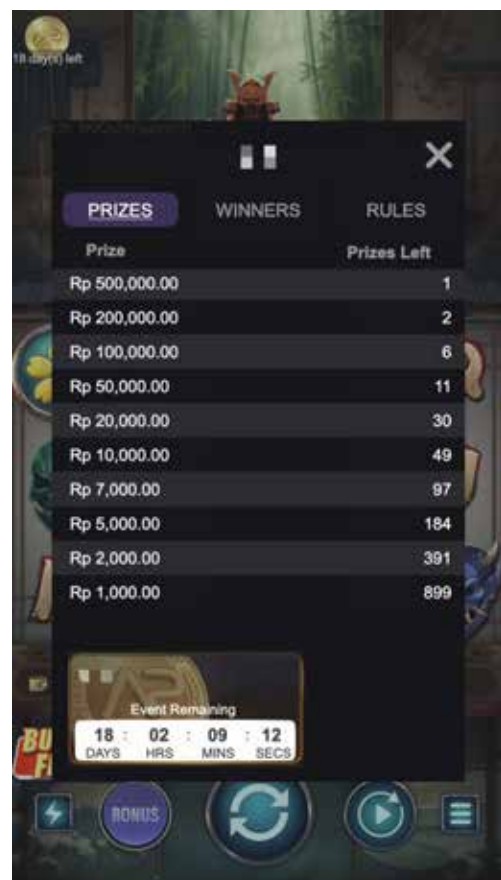

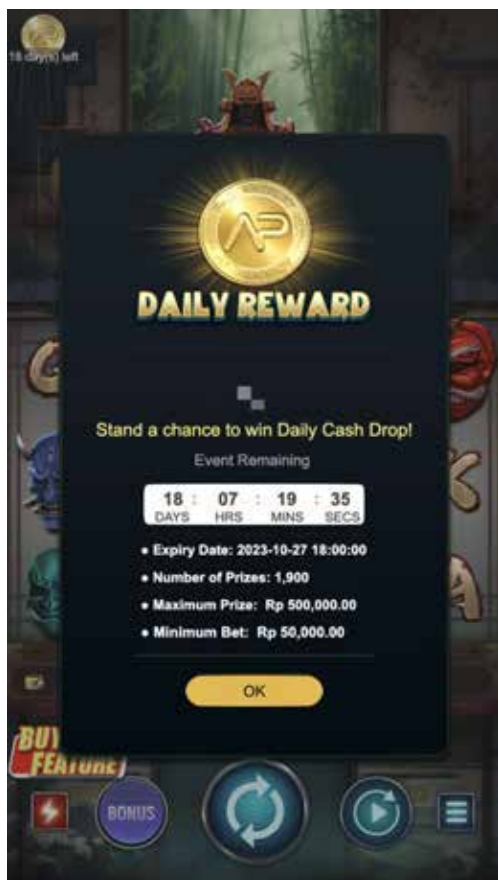

# CASH DROP FLOW

## Game Client

A pre-announcement message will pop up several hours prior to the start of the cash drop, informing the player of the upcoming event. To confirm their awareness, the player will need to click on the "OK" button.

The pop-up message includes details such as the **Time Remaining** until the cash drop begins, the **Total Number** of prizes available along with their respective amounts, and the **Terms & Conditions** of the event.

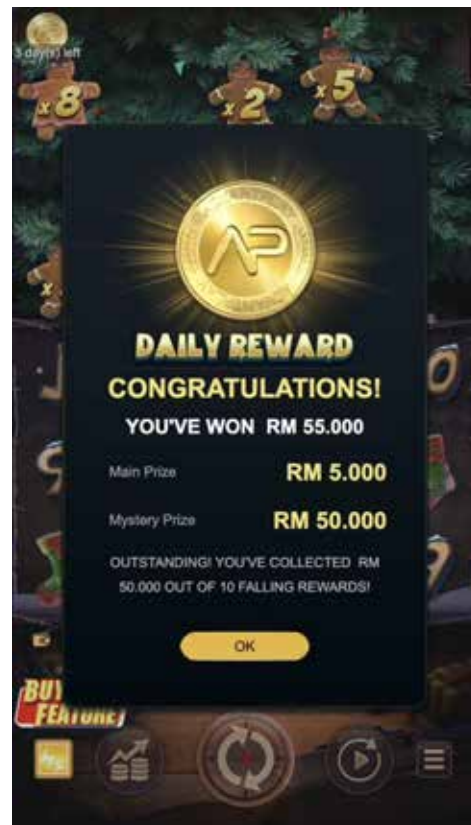

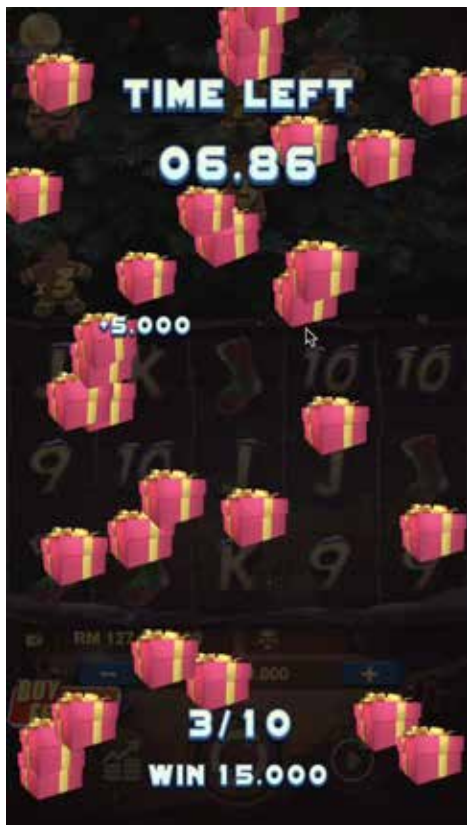

## Cash Drop Winning

After winning the cash drop, players will enter a **10-sec Cash Drop Scene** during gameplay. Tapping on the **Gift Box** that are falling within the scene can increase the probability of winning the mystery prize.

It's important to note that if players **FAIL** to tap on the AP coins within the 10-second time frame, they will lose the opportunity to win the **Mystery Prize**. However, they can **still** get the **Main Prize**.

The total winning of both the Main and the Mystery prizes will be displayed at the end of the cash drop scene.

## Winner List

During gameplay, players can view the list of cash drop winners by tapping the cash drop button located in the top left corner. The winner list shows the top 100 players who have won the cash drop.

If their own ID appears on the list within the top 100 winners, they can see their ID without being blurred out.
